

SUTTON PRIMARY ACADEMY

Sports Premium Funding Statement 2016-2017

How sports premium funding is spent within our school

For the academic year 2016-2017 Sutton Primary Academy has been allocated £8475.00 sports funding from the government to enhance the P.E. provision of the school. This funding is given to all schools and the amount is based upon the number of pupils on roll. We will continue using all of the allocation to employ a specialist P.E teacher, Miss Crisall. She is employed to work across the Herefordshire Marches Federation of Academies (HMFA) and will spend one day per week at Sutton Primary Academy, supporting staff.

Non specialist teachers will continue to benefit from this arrangement by increasing their knowledge, understanding and confidence to teach PE. This will be achieved via regular observation and discussions with the specialist teacher and support with their planning if required, as well as through centrally organised CPD sessions.

At Sutton Primary Academy, Miss Crisall teaches across the school alongside Miss Harrison and both members of staff run weekly after-school clubs offering a variety of sporting activities throughout the year. Pupils will continue to benefit from taking part in HMFA federation sporting events and festivals; these include netball, tag rugby and hockey tournaments, gymnastics and multi skills festivals and a federation athletics event which will involve KS1 and KS2 children. In addition to this there will be a number of friendly sporting fixtures between HMFA federation schools.

SUTTON PRIMARY ACADEMY

Impact on the wider Federation

In addition to Miss Crisall, Herefordshire Marches Federation of Academies has used the Sport Funding to employ a further two specialist PE teachers to work across all 7 schools in the wider federation. This has ensured that high quality PE lessons have been consistently taught in all schools.

The specialist PE teachers each run weekly sports clubs at each of 7 federation schools. These are for Reception, KS 1 and KS 2 pupils and enable every year group to access extra-curricular activities. These clubs have been full to capacity across the federation.

As the specialist PE teachers are employed to work across all the HMFA schools, this allows for sharing of PE equipment to ensure that all pupils have access to sports equipment and therefore are able to participate in a greater range of sporting activities.
